

A 0.5

Power transmission

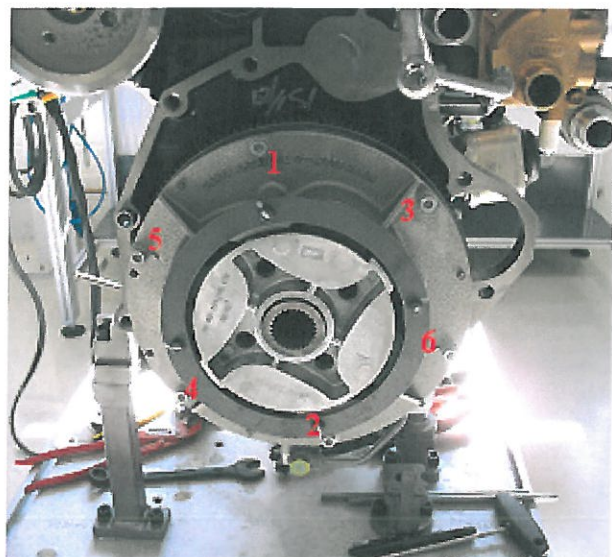

Re-fitting is possible using the following part numbers:

a = carrier

part number: 065 311 592 (up to 120 hp)*
 part number: 065 311 592A (up to 150 hp)*
 *only for reversing gearbox

b = cylinder head screw M8x20 (6x)

part number: N 102 254 02

Group	Number	Version
A 0.5	smc-07-82 vwm-07-02	01

Fitting of Centaflex Couplings in VOLKSWAGEN Marine engines

VOLKSWAGEN Marine has installed Centaflex couplings in 5-cylinder Diesel engines concerning engine numbers and commissioning dates stated below.

Centaflex-Couplings have been specially designed for applications in boats and yachts for the connection of reversing gears and propeller shafts to dampen noises, vibrations and torsional vibrations of the engine.

Engine number	kW/hp	In use since
BCT 001 061	40 kW/55 hp	07-11-2005
ANF 001 139	55 kW/75 hp	05-31-2005
BCU 001 495	74 kW/ 100 hp	05-01-2005
ANG 001 102	88 kW/120 hp	06-01-2005
ANH 001 617	111 kW/150 hp	06-06-2005
BTW 001 000	121 kW/165 hp	05-27-2005

Assembly indication:

Fixing of carrier at mass flywheel

Allen screw [mm] 6x180
 Torque 20 ± 10%

Quality indication:

- Fixing of screws crosswise
- Check carrier for square edges
