

QUICKSILVER PARA-LIFT 200 IDENTIFICATION

To insure a reliable way of tracking product changes for the Para-Lift 200, an identification number has been attached starting in March of 1992.

The starting identification number is 56901 and will continue on in numerical sequence. Any future changes to the product will be tracked by these numbers.

The number is attached to the vertical mounting bracket that mounts to the transom.
